Subject: Our economy needs your support

A cleanup plan is a good idea but we have to make sure we can afford it.

It's important to remember that the river is also a key driver in Portland economic engine. We all love the Willamette and its role in our environment. But I hope that you'll also factor in the important jobs the harbor provides.

I know that families that depend on the river will thank you for picking a plan that respects the jobs in the harbor.

Sincerely,
